

## Class Data Sheet

**Seldén Masts are the worlds largest spar maker and supply more race and championship winning masts that any other manufacturer.**

Seldén have worked with some of the top Enterprise sailors to develop the most complete Enterprise mast.

### Technology

All our tapers are CNC plasma cut and auto welded making them the most consistent masts available. This is vital for effective two boat tuning and to ensure race and spare masts will have identical bend.

We heat treat all are spars in our own oven to deliver a higher hardness specification. This means our masts are strong and can bend further without breaking or taking a permanent set.

### Masts

**D+** Section was designed specifically for the Enterprise class, which, with its deck stepped rig and minimally tapered topmast, requires a very high sideways stiffness for off wind speed but with combined with for/aft characteristics which enables power upwind to be controlled through for and aft mast bend.

### Booms

Our 2628 section standard boom includes inboard and outboard ends with ball bearing outhaul sheaves, plus two boom slides.

### Jibstick

Our 25mm Aluminium poles use our new pole end fitting which is the strongest and most reliable available.

Section	Weight Kg/m	Stiffness F/A	Stiffness Athwart
D Plus	1.07	72.9	57.2

### Features & Fittings

- All masts are made from 6082T6 aluminium.
- CNC plasma cut tapers for ultimate accuracy and consistency
- Heat treated after tapering increases material hardness.
- Durable peened finish.
- Welded in headbox.
- Optional dealer fit halyard lock.
- Ball bearing spinnaker halyard and pole lift boxes.
- Fully adjustable spreader system.
- Vernier spreader length adjusters.
- Gooseneck with stainless steel spigot and positive lock.
- Optional extended gooseneck. Automatic release of outhaul and boom squares further downwind.
- Integrated take off for rig tension system.

Art.No.	Description
D14-C074-0563	Enterprise Mast D+ Sleeved Unrigged
RIGP-0563	Enterprise Rig Pack
B071-0562	Enterprise Boom
S025-0563	Enterprise Jibstick, 25mm
